course information

## **AHC41010**

### **Certificate IV in Agribusiness (Focus on Sugar - Managing Price Risk)**

This qualification allows individuals to develop agribusiness skills and knowledge within the agriculture and production industry. They may undertake a range of complex and non-routine tasks related to the administration of an agribusiness. Students will develop and become proficient in a range of technical skills and knowledge areas vital to the management of an agribusiness. The agribusiness qualification covers such skills as business, financial and risk management.

#### **Course Overview**

The Certificate IV in Agribusiness, including a specialist price risk subject, will contain the following competencies:

AHCOHS401A - Maintain Occupational Health and Safety (OHS) Processes

AHCAGB301A - Keep records for a primary production business

AHCAGB402A - Analyse and interpret production data

BSBRSK401A - Identify risk and apply risk management processes

AHCBUS401A - Administer finance, insurance and legal requirements

AHCBUS402A - Cost a project

AHCBUS404A - Operate within a budget framework

BSBINM401A - Implement workplace information system

BSBRES401A - Analyse and present research information

BSBSMB406A - Manage small business finances

AHCBUS506A - Develop and review a business plan

Additionally an elective or credit transfer at the choice of the student will complete the twelfth competency.

The above competencies together with the below high level subject will provide students with a skill set allowing for professional management of an agribusiness.

AHCAGB606A - Manage price risk through trading strategy

(Course Snapshot at the back of document)

## Entry Requirements

Whilst there are no minimum entry requirements for the Certificate IV in Agribusiness, as stated in the AHC10 Training Package it is preferential that students have the following underpinning knowledge and skills as this will be beneficial in understanding and completing the course:

- Developed communication skills;
